PROFILE

Versatile full-stack developer skilled in the MERN stack, Java, C++, and JavaScript. Enthusiastic about new technologies and frameworks, with strong problem-solving abilities.

PROFESSIONAL EXPERIENCE

Full Stack Developer   02/2022 – present
AARYA 🔗   Noida, India

- During my professional career, I have gained valuable experience developing PL/SQL procedures, triggers, and functions to meet the requirements outlined in Software Requirement Specifications (SRS).

- I have also had the opportunity to work on DNA-based apps, which has provided me with unique insights into the latest technologies and trends in the industry.

PROJECTS

Real Estate Website: ARG Homes 🔗
WordPress, Shopify, Webflow

- Developed a real estate website that accommodates individuals and helps them find their ideal home like never before.

- Incorporated dynamic maps with smart features, making it easier for individuals to discover and classify locations.

- Leveraged the capabilities of the MapBox API, allowing clients to experience maps like never before.

- Utilized the features of Shopify and the customisable dashboard of WordPress to enable clients to regulate access effectively.

Imagify : Your Ultimate Image Enhancement Platform 🔗
SaaS Application - Next.Js

- Developed Imagify using Next.js for server-side rendering and dynamic caching, ensuring exceptional performance and seamless user experience.

- Incorporated Cloudinary AI to empower users with advanced image modification capabilities, including object removal and generative fills

- Leveraged the capabilities of Stripe to enable a SaaS-based model with coin purchases for accessing premium features, enhancing user engagement and monetization opportunities.
